*Executive Director*

On behalf of the Southwest Section PGA, our more than 1300 PGA golf professionals and the more than 300 PGA recognized golf facilities throughout the state of Arizona I am proud to write this letter in support of Rory Van Poucke for a position on the Central Arizona Water Conservation District Board.

As the current president of the Cactus & Pine Chapter of the Golf Course Superintendents Association, and as a long-time course superintendent, Rory has become THE voice for water conservation in our industry. His passion and tireless dedication to carrying forth the message of the wonderful job our industry professionals do in serving as great stewards of water conservation is unmatched. Rory has committed the time to educating himself and the general public of the importance of water conversation and the need for all of us to continue our efforts so that the game and the environment can thrive together well into the future.

As an allied association we're proud of the work Rory has taken on and we are in full support of his candidacy for a position on the CAWCD Board of Directors.

Sincerely,

Greg Leicht, PGA  
President  
Southwest PGA
